Description: **GATORENE** is ideal for removing, retouching & restoring water & solvent-based sealers. **GATORENE** will also remove certain adhesives, and is an excellent clean-up solvent for tools and equipment immediately after use. Not intended for sale or use in California. It is also great for clean up and flushing of sealers, metal sprayers.

For Use On:

- Removing, retouching & restoring water & solvent-based sealers
- Degreasing and cleaning tools
- Thinning specialty coatings
- Flushing metal sprayers

GATORENE can be used to re-emulsify the existing coating of sealer in order to repair issues such as roller marks, streaks, a plastic-like appearance, or white spots. A product like **GATORENE** will work anytime on a solvent-based acrylic sealer. If a water-based acrylic was used, you have a 24-48 hour window after applying the sealer to attempt your repairs with **GATORENE**. Depending on the severity of the problem, it may require saturation, aggressive scrubbing, and repeated applications to re-emulsify the sealer.
